Part II.

SUBSTANCE OF INTERVIEW DESCRIBING THE GENERAL NATURE OF WHAT WAS DISCUSSED:

Applicants' Representative authorized the changes by Examiner's Amendment to put the claims into condition for allowance. Furthermore, the product claims were canceled because they do not distinguish over products of the prior art which although may have been made by a different process do not possess any characteristics or properties which are different from the same products taught by the art. The products made by a different process are not necessarily patentable based on the process of how they are made since the patentability of a product must be based upon the product and not how it is made per se

Part III.

☒ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview directly resulted in the allowance of the application. The examiner will provide a written summary of the substance of the interview in the Notice of Allowability.

☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.
